

# GRACE HRABI

Grace Hrabi's rich and dulcet voice effortlessly fuses the **jazz**, **folk** and **pop** styles on her debut album. **Afraid of Heights** is a sweet and emotional journey into the heart and mind of the songwriter. The album is comprised of 3 standards and 8 of Hrabi's originals, all arranged by Hrabi and her band. The album was released at a sold out performance for the **2014 TD International Winnipeg Jazz Festival**.

Hrabi has been performing with bass player **Quintin Bart** for eight years and guitar player **Jesse Popeski** for the past three. The comfort and trust the players have with one another is clear both in live and recorded performances. *Afraid of Heights* was recorded at Private Ear Studios in Winnipeg Manitoba **live off the floor** to capture the bands unique musical relationship.

Grace Hrabi's music has been played on CBC Radio, Winnipeg's Classic107 FM, Ottawa's CKCU-FM and received a **3.5 star review** from the Winnipeg Free Press.

The trio is planning their first **Canadian tour** in the summer of 2015.
